

How to read your CIBIL Company Credit Report (CCR)

CCR is a record of your company's credit history which is created from data submitted to CIBIL by lending institutions across India. Your past payment behavior is a strong indication of your future credit activity. It is therefore important to understand that loan providers rely heavily on the CCR to evaluate and approve loan applications.

Identification

This section contains Report Order Number, a unique number generated every time your report is accessed from CIBIL's database.

Enquiry Information

This section contains search parameters like name of the company, an identifier and address/addresses.

Borrower Profile

This section contains the latest reported demographic information of your company. It is divided into four sub-sections:

- Borrower Details include Company Name, Legal Constitution, Class of Activity etc.
- Address and Contact Details include registered office address, telephone numbers etc.
- Identification Details include Company PAN, Company Registration Number etc.
- Delinquencies Reported on the Borrower include payment status of the company or the Guarantors.

CIBIL RANK

This section of the CCR provides CIBIL RANK. CIBIL RANK is a summary of CCR in the form of one number. CIBIL RANK ranges between a scale of 10 and 1. Please note, if the value is NA, it means that we are unable to generate the CIBIL RANK for your CCR. This is because, CIBIL RANK is only available for companies with current credit exposure of up to Rs. 50 crores.

Credit Profile Summary

This section provides a summary such as number and type of lenders, total outstanding amount, open credit facilities and the payment status of the credit facilities availed by the company or the guarantor. For a more detailed explanation, refer glossary at the end of the sample report.

Enquiry Summary

This section gives an overview of the number of enquiries done on the borrower entity by any lender in the last 24 months.
